

Psychiatric Rehabilitation Program (PRP)- Auth Staggering

Psychiatric Rehabilitation Program (PRP)- Auth Staggering Details

Psychiatric Rehabilitation Program (PRP)- Auth Staggering

PRP Information

1. Does this participant have a previously approved authorization on file that ends on 6/30/2021?*

Yes No

2. I am submitting only one extension request for this participant**

Yes No

Requests for extension to PRP will be granted only for participants with a previously approved concurrent PRP authorization which ends on 6/30/2021 and may only be requested once per participant to help reduce the bubble of authorization requests created by the re-launch on 7/1/20.

By submitting this request, I am verifying that I am aware of and following both requirements.

Failure to comply with the staggered authorization process as outlined in the provider alert could result in the authorization being reviewed and a potential retraction.

Confirmation & Attestation

Please note this authorization request is not a guarantee of payment, coverage is still subject to applicable State of Maryland benefits.

I attest all of the information provided is accurate and reflected in the participant's medical record.

Data Capture

Yes
